## Farewell Party For Miss Braren

over; Moffatt, centre; McNichol, right wing; Weiss, left wing. P. M. Abel, referee.

Last Thursday evening about twenty of the young people of the town gathered at the home of Mr. and Mrs. W. T. Cochran for a farewell party given in honor of Miss Edith Braren, who left on Sunday for Edmonton where she will train as nurse in one of the hospitals.

The party was entertained between nine and ten at the local picture show by the management, and then returned to the house where the remainder of the evening was spent. There were many cards and night after night, many hearty lunch consisting of sandwiches, cakes and coffee was served. One of the members of the crowd then expressed the sentiments of all those present in wishing Miss Braren every success in the profession which she was taking up.

The party then broke up without leaving any doubt as to the meritment of the evening.

## Women's Institute for Claresholm District

There will be a meeting at the School of Agriculture on Saturday March 11 at 3:00 p.m. of the women interested in the formation of a Women's Institute in this district.

The meeting will be addressed by W. J. Stephen, principal of the School of Agriculture, Miss McLean head of the Women's Institutes of the province, Edmonton and Miss Hayward, Instructor in Domestic Science, at the School of Agriculture, Claresholm.

All ladies are cordially invited to attend this meeting.

## ADDRESSING OF MAIL

The Post Office Department has forwarded the following form to the benefit of our subscribers as to the proper method of addressing the troops on active service.

In order to facilitate the handling of mail at the front and to insure prompt delivery it is requested that all mail be addressed as follows:

- (a) Rank.....
- (b) Name.....
- (c) Regimental Number.....
- (d) Company, Squadron, Battery or other unit.....
- (e) Battalion.....
- (f) Brigade.....
- (g) First or (Second) Canadian Contingent.....
- (h) British Expeditionary Forces.....

Army Post Office,  
London, England.

## High Class Birds

### Come To Claresholm

W. R. Shantz presented a pen of Goldfinches yesterday from Edward Banks of Almonte, Ont., consisting of first prize Ottawa cock, second prize hen and two second prize pullets. The birds are beautifully laced and rank among the very best of the breed. The birds will be bred here and shown in all the Alberta poultry shows during the coming year.

Mrs. G. Dennis has imported to Claresholm a pair of Light Brahmas from Hamilton, Ontario, it is also expected that these birds will be shown and win some good prizes at the poultry shows throughout the province during the coming year.

## Feminine Teams of Town And Agricultural School Meet

Claresholm was again favored with a fast and interesting game of hockey last Saturday evening at the local rink. The game was between the girls of the Agricultural school and the town.

The following ladies played for the town, as well as cots and barley school: Misses Covedale, goal; at the Central Farm and sixteen Knight, point; School, cover point; Branch Farms and Stations and two Strangman, rover; Snyder, centre; Sub-stations are presented in Bulletin Elverum, right wing. For the town, No 81 of the Experimental Farm took care of the Series. This seasonable pamphlet is pockt; Misses Bures, goal; Shand, available at the Publications Branch, point; Miller, cover point; Gaudia, Department of Agriculture, Ottawa.

over; Moffatt, centre; McNichol, right wing; Weiss, left wing. P. M. Abel, referee.

The game which was played before a good crowd of spectators was a fast one from start to finish, as is indicated by the score which is all in favor of the former.

The time was divided into four periods of ten minutes each.

After the game the players were all entertained by the management of the Rex theatre, at the local moving picture house. Then girls of the town team were given a supper at one of the local restaurants by the girls of the school.

## A SAILOR'S SONG

The shores are blind, the seas are minded,

And the wild winds blow;

And we cruise on the distant coasts

We cruise and seek the foes;

Secure their ships may be;

But the sea was made for sailor men,

And sailors for the sea!

Through fields they sowed we cleared

A road.

In weather they don't feed;

Long water we keep while they can sleep.

Below the waves of Kiel,

They look on and wait in doubt

For orders from Berlin;

But on the seas we hold the keys,

The keys that hold them in.

For them they hold them tight;

For mine their hindloins bind,

For things like these that spur our seas

We're out until we're paid;

As danger we capture stay;

For the sea was made for sailor men,

And sailors for the sea!

LONDON TIMES

CLARESHOLM ALTA., MARCH 11, 1915

NO. 3

## PATRIOTISM AND PRODUCTION

Patriotism without production is an empty sound. If ever there was a time when by your deeds you are required to be known, it is now. Now, when the Empire is at war; now, when many of the regular channels of supply are closed; now, when men in military have been removed from the land, it is a matter of great importance, now, when Britain is fighting for Belgium's right to live; now, when the world's liberties are at stake; now, when Germany seeks to prostrate Britain even as she has prostrated Belgium; now, when Germany threatens the forty million people of England, Scotland, Ireland and Wales; now, when the enemy is marching upon us, and villages, slaughering innocent and harmless women and children; now, when fertile fields and fruit gardens of other lands are lying in waste and swollen with death; now, is the time when Canada is called upon to put forth her mightiest effort to help stem the tide of destruction, to aid Britain to repel the invader.

In entering upon the campaign in which we are now engaged, the Department of Agriculture of the Dominion has entered upon a task that does not bode well.

It is not that our farmers needed altogether to be prompted to benefit themselves, but that perhaps some of them do not understand the true nature of the war and the more the more probably the conditions of the future. If we were to end tomorrow, there would still be need for every effort in productivity, for many years must elapse before the devastation that has been caused can be remedied or repaired.

Unhappily, probabilities tell us that the grand conflict will continue for many years yet, and when we consider the mind of the nation fathers, we must curse the damage that will have been done to every form of industry. To agriculture in particular, by the waste of life, by the wrecking of property, and by the despoliation of the soil.

It is in repairing the damage others cause that the farmers are called upon to aid. It is their mother country that is in dire straits.

With him, Oh, England, take my man!" Said the Wife.

Who will give for England? Promised to be paid.

"I will give my love forever To face the foeman in the field.

"Oh, love of mine! My heart goes too Would that my breast could give you shield!" Said the Maid.

Who will give for England? Pledge it on your life.

"I will give my eyes to weep

My heart to break my flesh to creep

My Heaven that on earth began

With him, Oh, England, take my man!"

Said the Wife.

Who will give for England? Hear your maidens call.

"I will give the whole of me, All that I am or hope to be;

Myself and mine to our last breath,

To fight for England to the death!"

Say we All.

against exorbitant prices, it looks odd to see a manufacturer of farm implements take the stand that Mr. Cockshutt has taken. No mention was made of a reduction in the prices of farm machinery. On the contrary it is rumored that the prices of plows will advance.

Mr. Cockshutt's motion was lost on division.

## FOR ENGLAND

Who will give for England? answer on your truth.

"I give flesh and blood and bone;

Blood to bleed and flesh to feel,

Bone to break, or break their steel;

For her honor is my own."

Said the Youth.

Who will give for England? Speak as you desire.

"Since I'm past the battle line,

I will give the son I've grown.

In his veins is blood of mine—

Easier to shed my own!"

Said the Sir.

Who will give for England? You whose faces tell?

"All that's left to us to give;

The dear young lives in whom we live.

The store we spent our years to save

The rest we'd earned before the grave,"

Said the Old.

Who will give for England? Promise to be paid.

"I will give my love forever

To face the foeman in the field.

"Oh, love of mine! My heart goes too

Would that my breast could give you shield!"

Said the Maid.

Who will give for England? Pledge it on your life.

"I will give my eyes to weep

My heart to break my flesh to creep

My Heaven that on earth began

With him, Oh, England, take my man!"

Said the Wife.

Who will give for England? Hear your maidens call.

"I will give the whole of me,

All that I am or hope to be;

Myself and mine to our last breath,

To fight for England to the death!"

Say we All.

—

MILLINERY ANNOUNCEMENT

Mrs. Larkin announces her Spring Millinery Opening for Wednesday and Thursday, March 17 and 18. With the very able assistance of Miss Clark, who was head trimmer for Price Jones, (Canada) Limited Calgaray last season, she will have on display a very smart and complete line for the ladies' inspection. Have a look at them before buying elsewhere.

## Mrs. Gagnon Dies at Spokane

Mrs. Henrietta Gagnon, who lived with her son, Chas. Rick, here for about a year up to July, when she went to Spokane, died in that city this afternoon after an illness of about three months.

Mrs. Gagnon while made many friends and was held in high esteem by all who met her.

She leaves to mourn her loss five sons, Edward Rick of Portland, William Rick of Washington, Peter Rick of Utah, John Rick of Minnesota and Charles Rick of this place.

## FOR SALE

Pure American Banners cast very thoroughly cleaned and graded, while they last at 85 cents per bushel f.o.b. Noblesville, socks extra. Write or phone at once.

THE NOLES FOUNDATION LTD., Noblesville, Alta.

## LIVE A WOMAN

Why is a new paper like a pretty woman? To be perfect it must be the embodiment of many types. Its form is made up. It is always changed, though inclined to be giddy. It enjoys a good press, the more rapid its better. It has a weakness for gossip.

Talks a good deal. Can stand some praise and is awfully fond of a new dress—Ex.

## SOME BIG THINGS IN CANADA

Canada has the largest grain mills in British Empire.

Canada has the world's largest live stock at Portage la Prairie.

Canada has the largest buffalo herd on the continent.

Canada has the largest and richest nickel mines in the world.

Canada will have the longest bridge span in the world at Quebec.

World's Champion two bowler was grown in the soil in 1913.

Canada has the deepest and most extensive seafishery in the world.

Montreal harbor has the largest grain conveying system in the world.

Ontario's Hydro-Electric Power transmission line is the longest in the world.

Canada possesses the largest pulpwood resources of any country in the world.

Canada has the largest consecutive wheat field in the world, 900 by 300 miles.

Canada has one of the largest single canal locks in the world at Sault Ste. Marie.

British Columbia has the largest trade of any country in the world per head of population.

Canada has one of the highest tides in the world—590 feet—in Noel Bay, Fundy.

The thickest known coal seam in the world—40 feet—has been found at St. John's, Nova Scotia.

Canada has the largest freight elevator in the world at Port Arthur, capacity nearly ten million bushels.

Canada has one of the world's most powerful constabulary forces in the Royal Northwest Mounted Police.

Toronto's Industrial Exhibition is largest in the world, based on attendance of over a million, receipts, area, and production of earnings.

The world's largest ice-breaker (of 10,000 h.p.) is being built at Montreal for the Prince Edward Island winter service.

The C.P.R. dam at Bassano, Alberta, is the largest individual project of its kind on the American Continent.

## SPECIAL NOTICE

The Clarendon Creamery will pay cream on the 15th day of every month.

By order of the Directors.

CARL J. BRAEN, Sec.-Treasurer.

## Missionary Work In Japan

Rev. C. M. Shortt, gave a very interesting address in the English church on Monday on subjects of Missions in Japan. He said while the number of converts were not so numerous as they were ten years ago, still they are more sincere, as their converts are the result of moral training.

The Japanese government takes much interest in the spreading of Christianity and approves greatly to its promotion.

## With The Local Picture House

The Rex Theatre, our local moving picture house is becoming a place of more than passing interest. It is an over crowded house that sees over change of program, which is always of the latest and best pictures shown anywhere.

Last evening was rather a novel night for this place, it being in charge of the local football team. There were five free seats in all corners, two of which were first class boxes and three rows of stalls, as well as a picture of the team which lost only one game during the season's play was flashed on the screen. Then the ladies teams were not forgotten either.

"The Master Key" a serial picture of five reels, was shown every Monday and Tuesday is the leading attraction of the week. This picture, also being shown at the Regent Theatre, Calgary.

In this week's picture we saw Wilkerson's return, which caused Gellion to faint, he thinking it only another vision which he had so often had.

Wilkerson then makes his get away

soon. Ruth Galloway, in search of her father enters the mine and upon discovering that he is not there, one of the miners tells her to ride out of the mine with him in the empty car, but after going only a short distance he is blown from the car by a pre-emptive explosion and the runaway car is left behind on the end of the mine track. But John Daws, the mining engineer in testing out a new cable bucket sees the runaway car coming and hangs by his knees over the track and rescues the girl from the car just before it falls to the dump.

The life of a country editor is certainly a remarkable one. He gets the inside end of the stick at every turn. In the first place he turns out work for churches, schools and charitable institutions at a reduced price. He puts notices in the paper of all kinds of entertainments that are coming, free of charge, those giving the entertainment failing to even extend the cost of the paper. He gets a free ticket. When a country editor looks up against innumerable unfair incidences, in which he is the victim, it takes a surprising amount of self control to refrain from yielding to temptation and printing a few of his innermost thoughts and telling everyone of them—indeed, he publishes articles on the subject of politics and selling the public of the advantages to be derived from trading with the local business men, (whether they advertise or not), instead of with the mail order houses, for all of which he receives nothing. In return for this the most he expects is the patronage of his paper and his job plan by the local business men. But the editor's wife, stationer, printer's lab and space in his paper in defense of the local merchant against mail order houses, that same local merchant does the very thing that the editor has been making an honest effort to get the people not to do, and sends away for his printing. Is it fair? Is it just? Is it right? Is it wise to get even break? If it is, we fail to see it. Our pure, unadulterated, candid opinion of the matter is that it is—noten—Ex.

Canada is many times larger in area than Belgium, but in population there is not a great deal of difference, that is, considering Belgium before the war. Britain is the protector of small states. The greater the area and variety of area, the more protection is needed when emergency arises.

Great Britain imported 183,125,600 bushels of wheat from August 1, 1913 to July 31, 1914. Russia exported 163,267,000 bushels and Romania 45,612,000 bushels in the same period. How much will these countries export this year?

Great Britain imported from Aug. 1, 1913 to July 31, 1914, 51,275,000 bushels of oats. Russia exported 81,000,000 bushels, Germany 67,000 bushels and Romania 27,063,000 bushels. The last three countries is 1915 will hardly export a bushel. How is the deficiency to be made up?

Great Britain from August 1, 1913 to July 31, 1914, imported 40,160,000 bushels of barley, Austria-Hungary 8,061,000 bushels, and Romania 18,361,000 bushels. How much is Canada going to do to make up the large shortage?

Now is Canada's opportunity to make good her boast that she is the granary of the Empire. Many of her young men are displaying a martial turn and hastening to follow them selves, to sacrifice themselves, in the cause they have at heart. But there are others who are not so well educated in their country. That share, soil fertilized, while helping others, cannot fail to help ourselves. We shall be abundantly paid off for all we do, and in doing will pass the proud sense of serving the right. To neglect the opportunity for improved production is to not only fall short of the call of duty, but be guilty of a crime. We have the soil, we have the resources, we have the energy to justify our claim to be the granary of the Empire.

**Carl J. Braren**

## Yes, There Is MONEY In EGGS

Have you ever stopped to think that a hen will lay 150 eggs a year. Certified authorities tell us that it costs 12 cents to produce eggs. People in the business say that fresh eggs average 45¢ a dozen. This leaves a net profit of 9¢ a dozen. 9¢ net on 150 eggs is \$8.75, which you should make net profit on each hen. If you had 1000 hens it would be \$8750. You should be able to sell eggs for 15¢ a dozen when you are selling less than this amount per dozen. Get in touch with me, I will let you know where to get eggs, how to keep them, how to sell them, etc. I can buy a model farm for \$150 cash, the balance spread over a term of years. Model farms are all cleared no stumps or stones to contend with. They are situated on the main line of the Canadian Northern Railroad, are connected with the city of Kamloops by a good automobile road, the Hydro-Electric power is available, there are passes through the property which will supply light and power. Model farms are situated right on the bank of the North Thompson river, which supplies ample water for irrigation. Model farms are cleared for irrigation.

Fill out the coupon below and mail it to me at once, and I will send you further particulars.

### Judicial Sale of Farm Lands Near Stavely Alberta

#### Pursuant to Judgment and Final Order for Sale there will be offered for sale, subject to the conditions and reservations expressed in the original Grant from the Crown or in the existing Certificate of Title, with the property of the same, in the Supreme Court at Edmonton, by

A. A. Brewer, at the Queen's Hotel, in the Village of Claresholm, Alberta, on Tuesday, the 23rd day of March, 1915, at the hour of two o'clock p.m., Section Nineteen (19), Township Thirteen (13), Range Twenty-six (26), Victoria County, Manitoba.

It is understood that the property is situated five miles from the Town of Claresholm in the Macleod Branch of the C.P.R. The nearest school is one and one-half miles due east, while the nearest elevators are at Claresholm. The soil is a loamy soil of good depth with a clay subsoil. There are approximately 150 acres under cultivation, all of which is located on the north half of the Section, which were cropped last year, (1914). There are two good wells on the property in which there is said to be an unlimited supply of water. The section has a gentle roll with a general westward slope. The hill is high and dry and could well be cultivated, although some sixty acres are stony. The section is all fenced and cross-fenced with willow stakes two and three strands of barbed wire, which is in good condition.

The buildings consist of the following:

- Front cottage, shingle roof 20x24, frame addition, single room, 12x24; farm barn with loft, shingle roof 28x45; frame building, shingle roof, 12x45; frame hen-house, shingle roof, 12x24.

The house is said to be six years old, while the out buildings are about three years old and in fair condition.

Terms: Ten per cent of the purchase money is to be paid at the time of sale, and the balance in four installments in Claremont, Alberta, annually with interest at 8 per cent payable yearly, and the balance at the end of the five years.

In other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta as approved by the Minister.

For further particulars apply to Messrs. Ennery, Newill, Frost, Bolton & Mount, Solicitors, Edmonton, Alberta.

Dated this 23rd day of February, A.D. 1915.

ALEX TAYLOR, C.S.C.  
Approved A.Y.P.

This is Canada's war.  
What will the Harvest be?

The first essential for the highest yield is good seed.

Not only grain growers, but breeders and producers are making history at this juncture.

Value of the crop is increased if treated for smut prevention.

Failure to secure suitable varieties is a frequent cause of poor ensilage.

All grain intended for seed should be cleaned and graded, in order to retain only the strong kernels.

Farmers who have separate houses for their laborers have no difficulty in securing help.

Good labor is worthy employment in winter as well as in spring, summer and autumn.

If labor is scarce now, it will not be more plentiful in another year, so it is wise to encourage present help.

A bureau of employment could find useful work in every town of size.

Austria has decreed that every acre must be utilized for production. Wasting land is the worst form of extravagance.

Live stock is the foundation of permanently successful farming today, as it has always been.

The farmer who conserves his best stock for breeding will profit greatly in the future.

### GOING HALVES.

#### The Cranky Man Made Sure the Division Was Perfectly Equal.

"I once had a neighbor," said the retired Justice of the Peace, "who had been warned that this man—Black I cantankerous. I certainly found him eccentric, but I am easy to get along with. He was a simple man, but he had seven years without any serious trouble."

"We each had a few acres of fruit picking and be convenient for various other purposes. He could get along with me, but he was a bit of a scold for me, and I agreed to pay him half of it."

"The ladder proved to be a useful tool, and I used it to support the picket fence that separated our gardens, where either owner could

"In the spring of my seventh year there was a great deal of rain, and I used the ladder to support the fence. He wanted \$2.50, which I thought was excessive. For six years he had never asked for a cent, and it was showing signs of wear and tear. I offered to pay him \$1.50 or to take the fence down myself, but he said no, he would have no use for a ladder, the fence was in such a bad condition, and I must buy it."

"The fence was still standing the 1st of May. Two days before that date the ladder had come out of the ground and it was leaning against the fence. When I went to visit his sister and we shut up the house for a week. When we returned the Blacks had moved away, and found in the ladder, but a cent was not from him."

"Now you would not come to terms about the ladder, I have settled the matter by dividing it equally. Have you seen the man?"

"He was a tall, thin man, with a fifteen foot ladder is rather short, still I thought the whole I should be able to divide it fairly easily. From the back doorway I looked over at my half of the ladder as I sat on the floor, and I was surprised to see how long it seemed to be. Certainly it was more than fifteen feet long."

"I then made a strange discovery."

"Black had fulfilled the neighbor's request, and had sawed the ladder in an unexpected spot."

"With nice accuracy and an almost insect-like precision he had sawed every round apart through the middle. He had divided that ladder lengthwise from top to bottom!"

### NOTICE

In the matter of the Court of Confirmation of the Tax Enforcement Return of the Rural Municipality of Argyle No. 99.

Take notice that His Honour Judge McNeill, Judge of the District Court of the District of Macleod, has appointed Friday, the 21st day of May 1915, at 11 o'clock in the forenoon, in the Council Chamber, Gramma for the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Rural Municipality of Argyle No. 99.

A. H. TOPEL,  
Secretary Treasurer

### Notice to Subscribers

We wish again to call the attention of the public to the fact that all subscriptions and accounts due the Review prior to January 1, 1914 must be paid at this office, and not to H. Duncan. As there is an order in the Court forbidding Mr. Duncan, of collecting these accounts, receipts issued by him for same are not valid.

100,000 Acres in Alfalfa

North Dakota Has Increased Area  
From 3,000 Acres in 1911, Ac-  
cording to Land Census.

The increase in alfalfa area in North Dakota is demonstrated by its acreage growth during the last few years. In 1911 there were re-  
spectively over 3,000 acres in the entire state, while in 1912 the area taken just before the land days by counties showed that there were now 9,000 acres.

The rapidity with which the acreage in this state has increased is due to the efforts of the North Dakota Farming association which was organized two years ago. As striking most of all is the effort of the state of the German people to eat at home. The state is nothing to what it will be when the Alabamas begin their invasion.

## She Was In Bed For Seven Weeks

THEN DODD'S KIDNEY PILLS  
CURED MADAME BERUDE

Montreal Lady Tells How, After Four Years Illness, She Found a Complete Cure for All Her Troubles

Yesterly, Que. (Special)—Madam J. Berude, 52, widow of a prominent Logan Avenue, this city, asserts that after four years' suffering from kidney trouble she has been cured and restored to health by Dodd's Kidney Pills.

"There was a pain in my left side around the heart," Madame Berude says in her statement, "and although I took medicine and a doctor, for seven weeks I was in bed with kidney trouble. I could not get up, and I could not help myself so I decided to try Dodd's Kidney Pills."

"I took one tablet a day, and was able to do my work. Dodd's Kidney Pills did not cure me, but they helped all persons who suffer as I did."

Notice how many women are rising to health and happiness again after a find relief in Dodd's Kidney Pills. The reason is that nine-tenths of women's kidney trouble is caused by kidney disease.

Every woman whose kidneys show signs of disease or weakness should take Dodd's Kidney Pills.

Empress Aiding the Allies

Former Empress of France Conve-  
nies English Estate Into Hospital  
and Assists Outcome of  
Great Struggle

Among the most recent pictures showing the British soldier on the march, in the trenches, in camp, and convalescent officers, the women were two taken off the same beautiful estate now, by the generous Empress of France, into hospital and convalescent officers. The women are very old ladies, and the picture shows them in their old age, dressed in their old attire. The notion that the kit is always worn is wrong. It is the body itself, body and soul, that is thus far removed from the world.

It is the body that is thus far removed from the world.

It is the body that is thus far removed from the world.

# LOVE AND GOLD

## Who Doesn't Thirst for Them?

One man thirsts for Gold—on for Love. These gripping human emotions make a cringing, loathsome beast of one man—a master, a genius and a hero of the other.

## But the girl, Ruth Gallon. What of her?

Hers was the most nerve-racking, vivid, thrilling experience of all. It was she who was practically buried alive—threatened on every side with certain death by rushing water, with fire, falling rocks, yet it was she who found the key to perfect happiness.

## Have you been getting poor on the money you "Saved" by using Cheap Printing?

THE business man who seeks cheapness as the FIRST consideration in buying his Printing, never really pays much attention to other elements in the transaction--except, perhaps, the matter of getting it done quickly.

The money SAVED by buying CHEAP printing is money on which you have paid an absolutely ruinous premium.

It will make you poor if you persist in saving enough of it.

Select your printer at least as carefully as you would select your tailor or clothier—for while these two have something to do with your business success, your printer has a great deal to do with it.

Before you "tie up" to him, make him show you his value to you. If he's the right sort of printer, he can.

Let us help you plan your printed matter. We can be of real service to you.

## NOTICE OF SALE

Pursuant to the Order of the Supreme Court made in a certain action between Edward A. Kortright and William MacLeod Campbell, Trustees of the will of the late Lady Theresa Kortright, plaintiffs, and the Trustee and Guaranttee Company Limited, Administrator ad litem of the estate of Robert J. Lindsay, deceased, and Frederick H. Metty, deceased, the North East Quarter of Section 14, Township 14, Range 23, West of the Fourth Meridian in the Province of Alberta, will be offered for sale on Saturday the 20th day of March, A. D. 1915, at the hour of ten (10) o'clock in the forenoon in front of the post office in the Town of Claresholm, Alberta.

The land will be sold subject to the reservations contained in the original grant from the Crown and the existing certificate of Title.

The lands consists of 100 acres, more or less, and lie about 15 miles from Sturley, and about 3 miles from Bow Valley post office.

The lands are said to be erected front on to the Bow River and a bridge 100 feet long.

The nature of the soil is sandy loam. The property will be offered for sale subject to a reserve bid fixed by the Court.

The purchaser will pay ten percent of the purchase money at the time of sale to the vendors or their successors in the business within sixty days thereafter, and the balance in credit of this action, without interest.

The vendors will only be required to furnish a Registrar's Abstract of Title and produce such deeds, copy thereof, or evidences of title as are in their possession. In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta as approved by this Court.

For further particulars apply to

W. M. CAMPBELL,  
Solicitor, Macleod, Alta.

Approved EDWARD P. MCNEIL L. J.

February 24th, A. D. 1915 2-253

## VALUES OF FARM LAND

For the whole of Canada the average value of farm land held for agricultural purposes whether improved or unimproved, and including the value of dwelling houses, farms, stables and other farm buildings, is estimated as \$38.41 per acre, which is about equivalent to the value of land in 1910, when the value was given as \$38.45 per acre. In 1912 the average was returned by the Census as \$30.41, but this value was based upon returns from all occupiers, including farms only recently settled and therefore of less value. By provinces the average value of 1912 ranged from \$26 per acre in Alberta to \$150 per acre in British Columbia. In this province however the high value is due to orcharding, ordinary agriculture being subsidiary to fruit culture.

## WAGES OF FARM HELP

In recent years the wages of farm help have increased considerably, and they reached their highest point during the bumper harvest of 1913. But in 1914 the pendulum swayed back, less labor being required on farms owing to lighter crops. Since August the war has had for one of its effects an increase in the supply of farm help, and this has caused a fall in the wages. The demand for labor this winter has also decreased because of the increased cost of board. For the Dominion the average wages per month during the summer, including board, were \$35.55 for male and \$18.81 for female help. For the year, including board, the average wages were \$323.30 for males and \$189.35 for females, whilst the average cost of

## board per month works out to

\$14.27

and \$1.00 for female help.

compared with \$22.49 and \$9.53

in 1910. Average wages per month in 1914 were lowest in Prince Edward Island, viz., \$24.71 for males and \$14.48 for females, in Nova Scotia they were \$31.29 and \$14.50 and in New Brunswick \$31.93 and \$15. In Quebec the averages were \$38.55 and \$18.50, and in Ontario \$32.00 and \$16.07. In the western provinces they were for males \$38.13 in Manitoba, \$40.51 in Saskatchewan and \$48.26 in Alberta; females receiving \$22.35 in Manitoba, \$22.39 in Saskatchewan and \$23.93 in Alberta.

The highest wages were paid in

British Columbia, viz., \$47.85 for

males and \$31.18 for females; these averages being substantially less than in 1910 when wages received \$37.40 and females \$8.80.

whole herd was only 3,772 pounds of meat and 139 pounds of fat. In fact the average per cow yield of any one cow was 5,058 pounds of milk and 288 pounds of fat, the herd average was 7,255 pounds of milk and 342 pounds of fat.

There were several individual yields

of over eight thousand pounds of milk, while one goat grade cow gave 16,400 pounds of milk and 562 pounds of fat.

Coupling to the cost of feed, plenty

of the herds had an average

cost per cow of from forty to fifty dollars, even at these high figures the profit above the cost of feed ran up to forty-six and fifty dollars as the herd average.

Such results are full of encouragement for the future of cattle breeding in the Maritime Provinces. Other dairymen may well strive to emulate these records of fifty and sixty-five dollars clear profit above the cost of feed as made by good individual cows.

The sensible method of determining the responsible merit of each cow as pro-

ducer makes her a solid foundation for building up a singularly interesting herd from a modern business standpoint.

Increase of knowledge means in-

crease of production.

## GOOD PROFITS

In one dairy record carried main-

tained by the Provincial Council,

in 1914 there were such surprising

contrasts in yields of milk and fat

that they must command the atten-

tion of every progressive dairyman.

The best cow in one herd gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only 155

pounds of fat; the average of the

100 cows

gave only

4,153 pounds of milk and only
